The Problem

Why Financial Literacy?

As of 2024, **26 states** require students to take a standalone **personal finance** course to graduate from high school

The lack of financial literacy **cost Americans an estimated total of \$388 billion** in 2023

Financial literacy is correlated with income, as only 28% of Americans earning less than \$25,000 per year are financially literate.

Gen Z and Millennials have the lowest financial literacy rates among US generations, at **38% and 45%** correct answers, respectively.

*The Federal Reserve, for example, defines someone as financially literate if they can answer questions surveyors pose about interest, inflation and risk diversification.

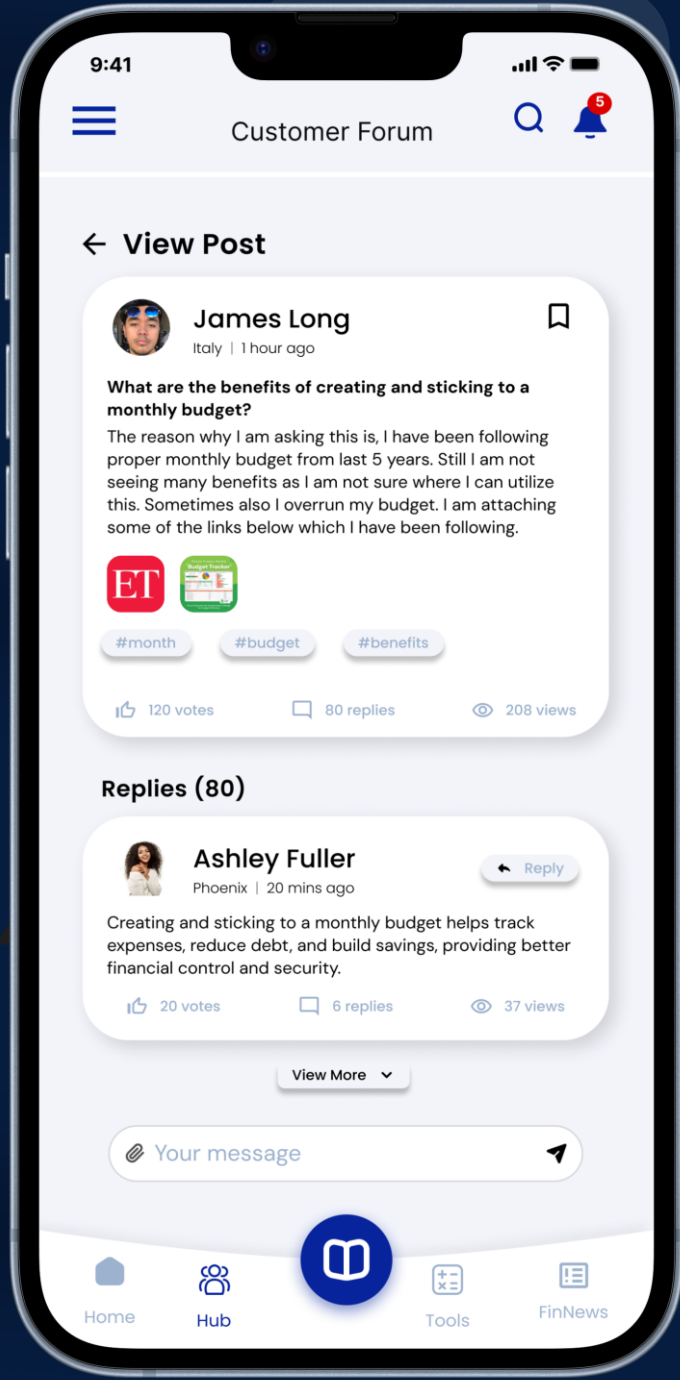

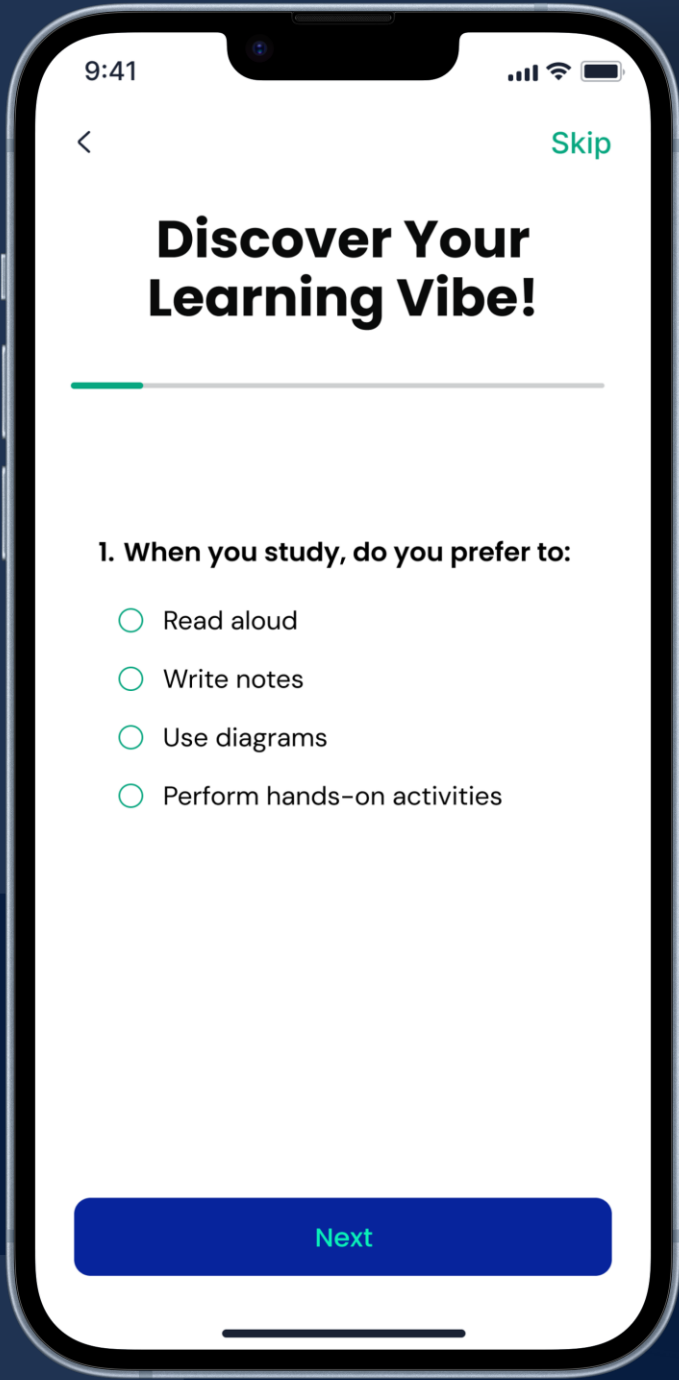

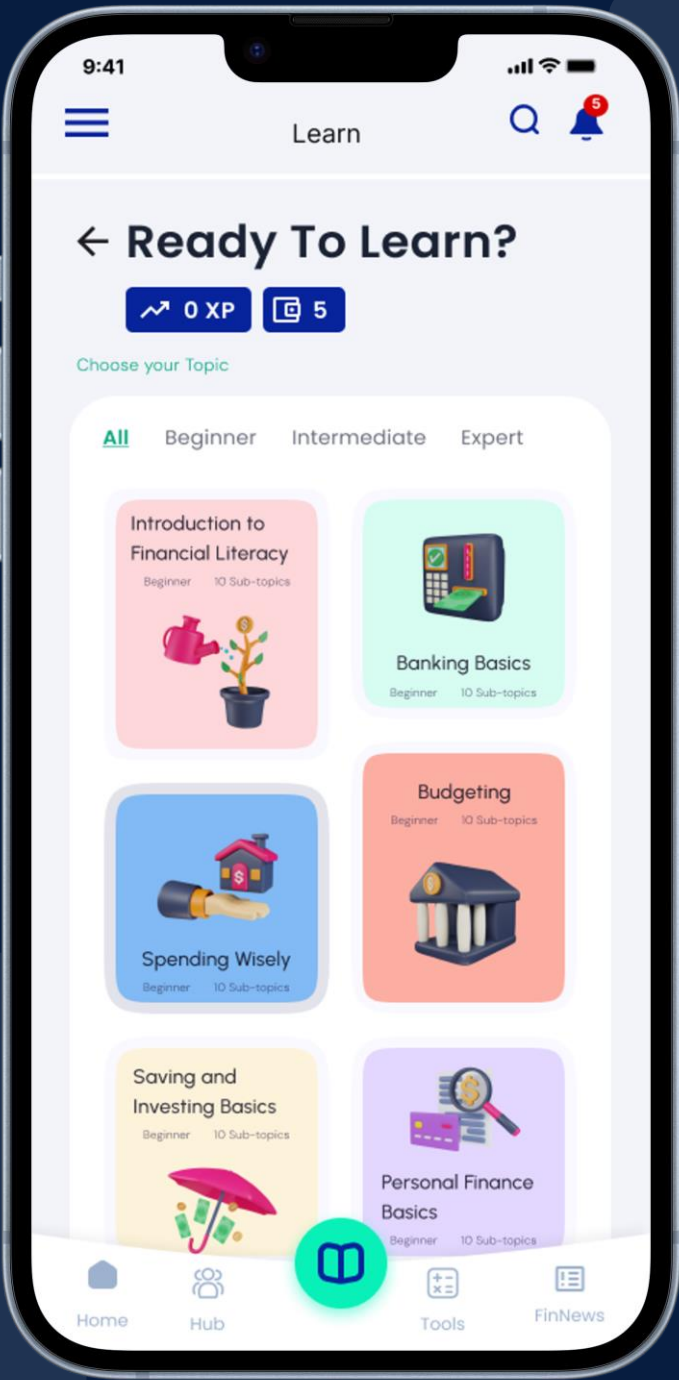

The Solution

Personalization and
Gamified Financial
Learning

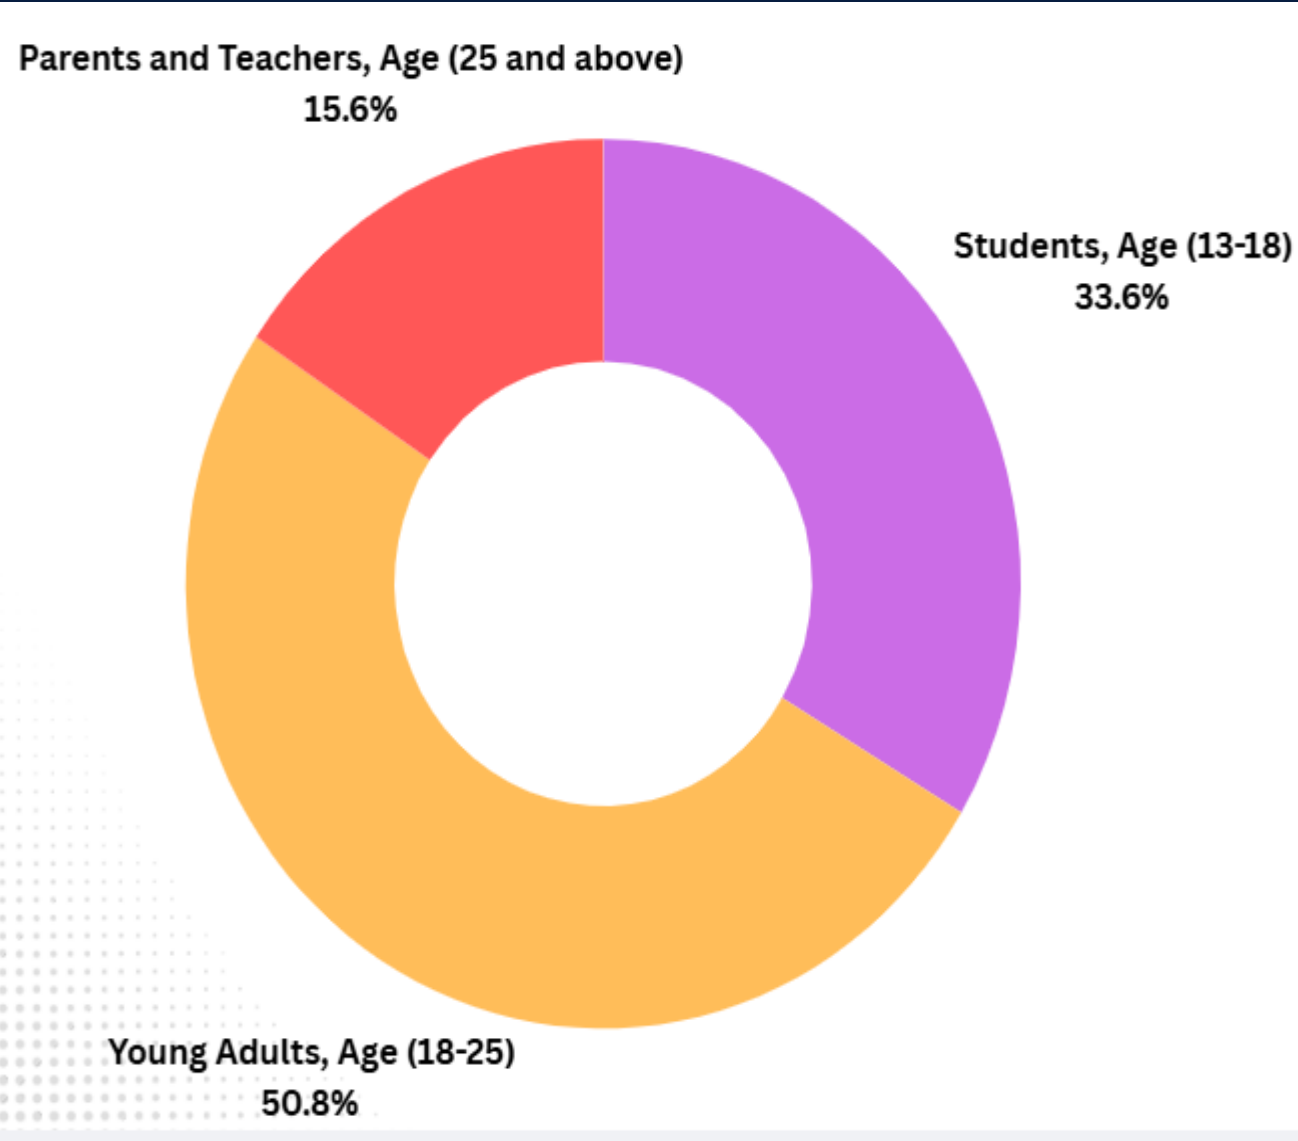

AI Driven
Recommendations

Community and
Collaboration

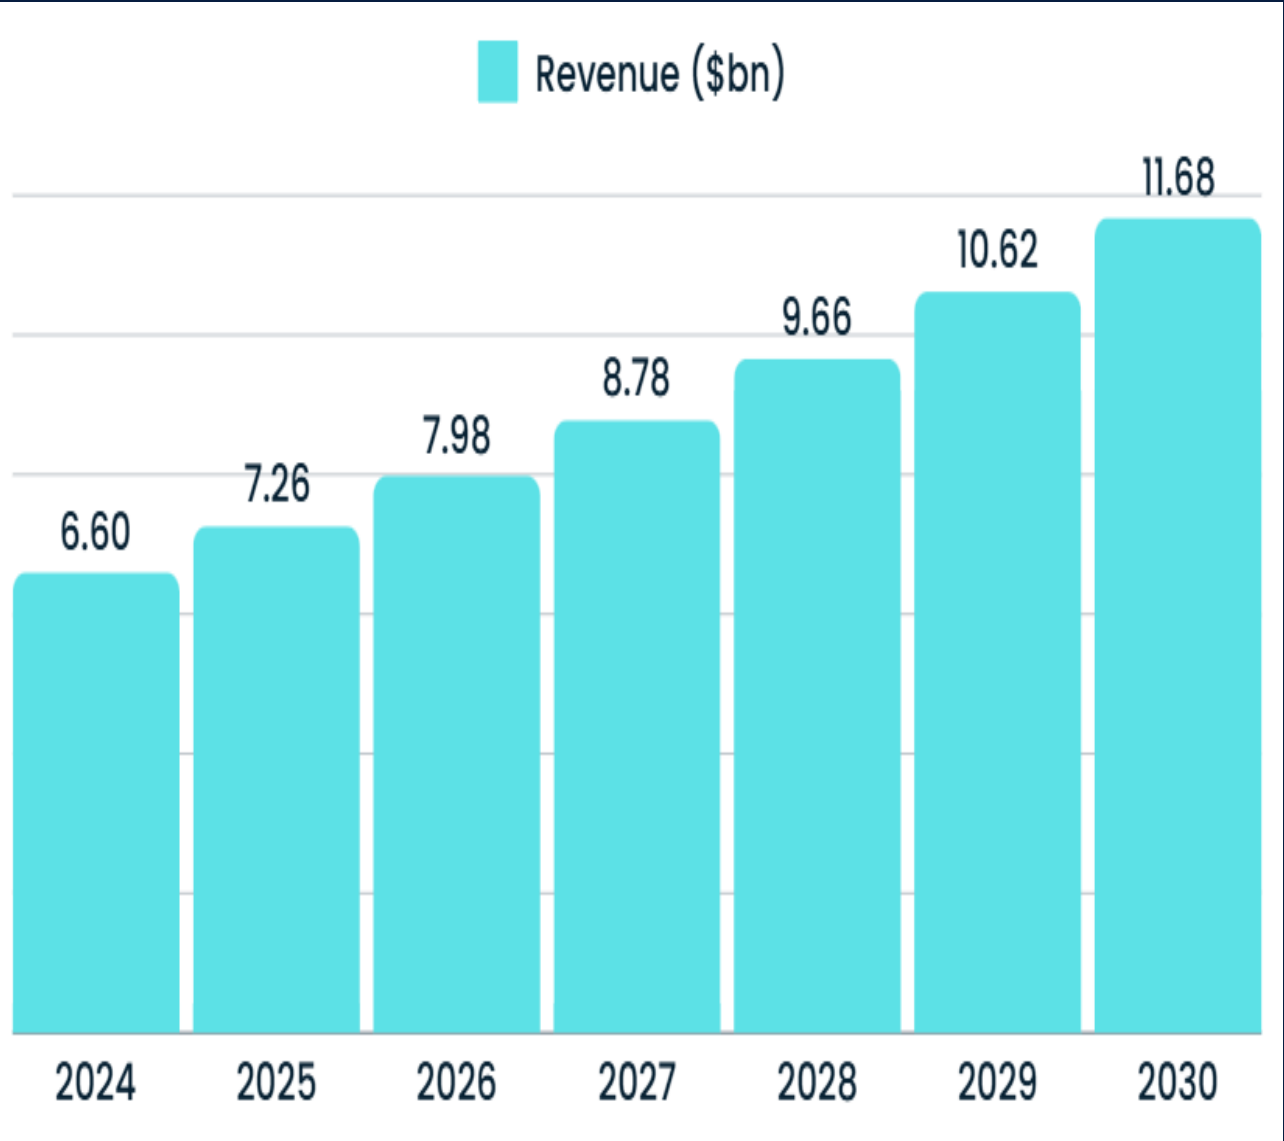

Market Opportunity (US)

Target Market

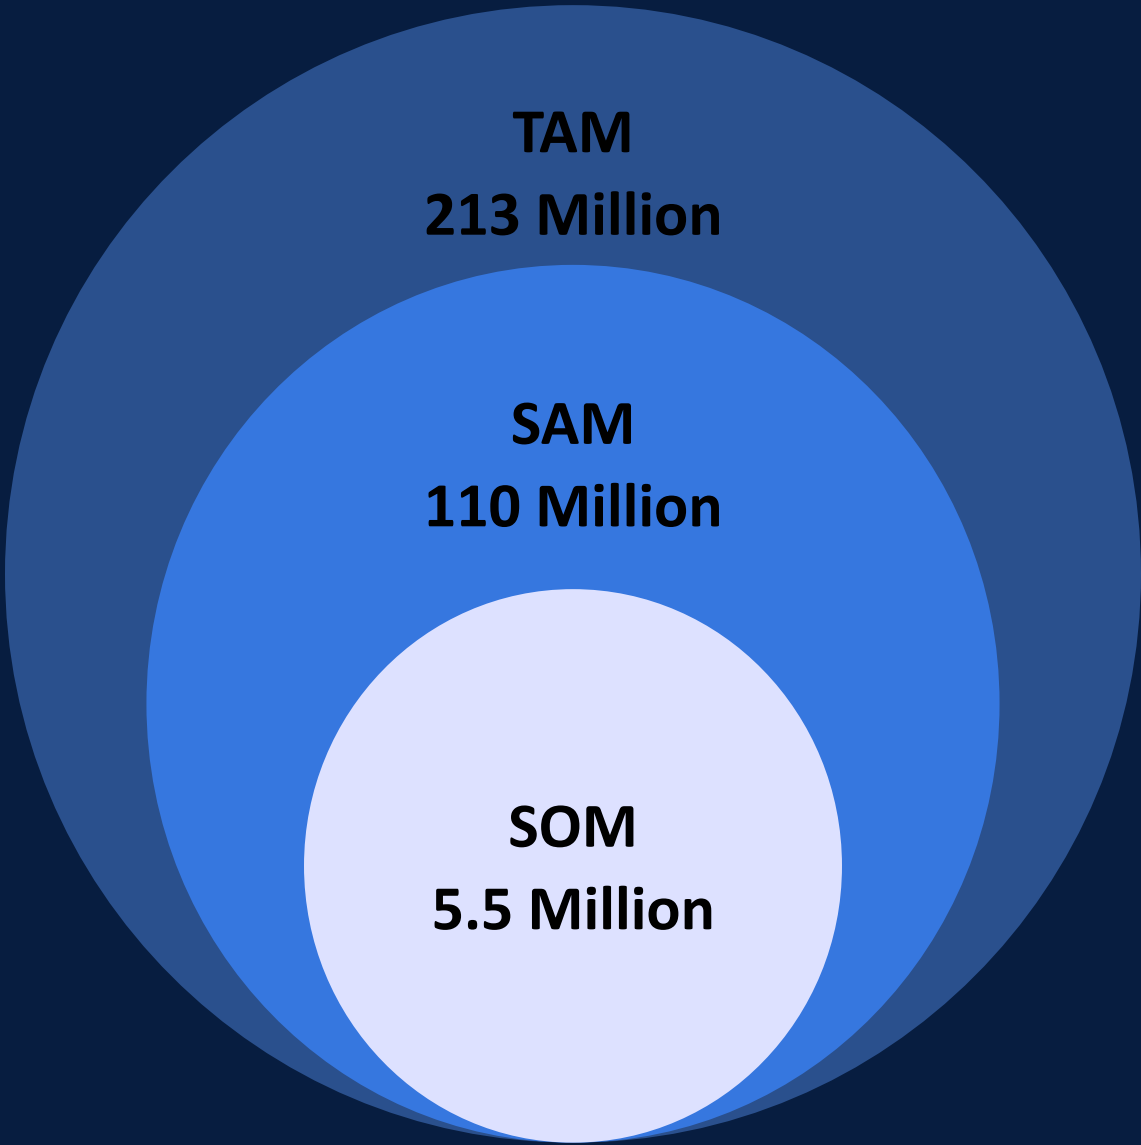

Over 70% of students, young adults, parents, and educators actively engage with financial literacy applications, highlighting a growing demand for tools that simplify managing and understanding personal finances."

Market Growth (Industry)

The Education App Market is expected to grow at a compound annual growth rate (CAGR) of 9.98% during the 2024 to 2030 period.

Market Size

Total Available Market (TAM): 213mm
Serviceable Available Market (SAM): 110mm
Serviceable Obtainable Market (SOM): 5.5mm

Customer Demographics

• Demographic

Age

Primarily 13-40 years old, the core Millennial and Gen Z segment

Gender

Relative equal distribution

Education

Emerging Graduates
Early Earners

• Behavioral

Financial Habits

Low to moderate savings
High levels of student loan debt
Interest in investing but lack of knowledge

Tech Savviness

High smartphone usage
Comfortable with digital learning platforms

Engagement

Seek information from online sources
Active on social media platforms

• Psychographic / Technography

Lifestyle

Busy and fast-paced lifestyle
Concerned about financial security/planning

Attitudes

Desire for personalized financial advice
Skeptical of traditional financial institutions
Open to new ideas and technology

Device Usage

Willing to download and use new apps

Key Target Segments of Our Average Customer

The Novice Student

Young adults with high student loan debt, learning to budget, save, and build credit

The Aspiring Investor

Millennials interested in investing but lack knowledge and confidence

The Busy Professional

Mid-career professionals looking for time-efficient ways to improve their financial literacy

Competitor Benchmarking

	Adaptive Learning Experience	Mobile First	Gamification	Community Features	AI Tutor and Support

Functionality and User Experiences

1

Adaptive Learning Paths

Utilizing **machine learning algorithms** to create **personalized learning paths** based on user interactions and knowledge levels

2

Data-Driven Insights

Analytics to provide users with **actionable insights** into their learning habits, enabling them to make informed decisions about their educational journey

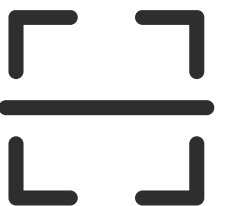

3

'Arcade' Experience

Game-like elements such as **rewards, challenges, and leaderboards** to make learning engaging and fun.

Try Our App

Acquisition Strategy and Channels

Influencer Marketing Strategy

Leveraging influencers in the education and finance sectors to amplify brand awareness and user acquisition, to reach niche audiences and foster a sense of community.

Institutional Collaborations

Partnerships with educational institutions to not only increase visibility but also credibility, as the app becomes an endorsed resource within academic environments, driving user trust and adoption.

Targeted Social Campaigns

Data-driven social media campaigns that focus on target demographics to enhance user engagement and conversion rates.

Roadmap to Launch!

- ✓ Hired Interns
- ✓ Built Roadmap of Project
- ✓ Completed MVP1
- ✓ R&D of Market, Competitors, and Financial Estimations
- ☐ Start First Seed Funding Round

Year 0 – Mid Year
(Apr '24 – Sep'25)

- ☐ Pre-Launch/Test Faze
- ☐ Build Web Side Application
- ☐ Finish MVP2/Start MVP3
- ☐ Build Out Partnerships and Advertising
- ☐ Build Advisory Board

Year 1 – Launch
(Jan '26–Mar '26)

Year 0 – Beginning
(Aug '24 – Mar '25)

- ☐ Receive Funding for Interns, AI Model Expenses, Additional Resources.
- ☐ Develop MVP2.
- ☐ Prepare for Series A Funding Round.
- ☐ Hire Senior Developers.

Year 0 – End Year
(Oct '24 – Dec '25)

Launch of FinEd!

Fueling FinEd: **Your Investment, Our Future!**

Fuel Our Growth!

\$475,000

Help Us Cover:

AWS Expenses

- Our tech stack includes several AWS tools for data storage, AI development, and cloud services.

Internal Management System

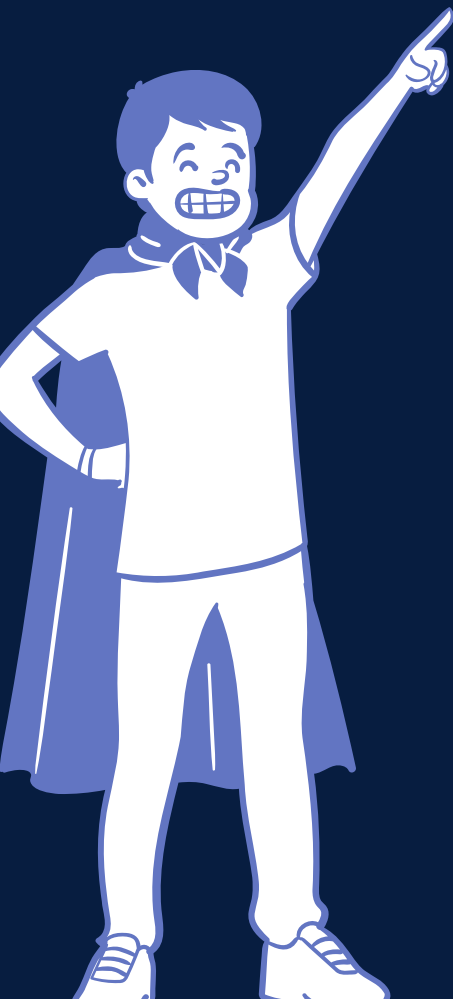

- Current Developers/Interns are managed through a 3rd party system.

Salaries and Contracts

- To hire our current staff of developer's full time and (Proceeds) to contract/hire more developers.

Legal & Miscellaneous

- This will help us cover unexpected cost from design to testing!

*FinEd is developed under a 501c(3) organization known as Innovative Start Org
